RE: Letter of introduction – Mr. M. Clapp

It is not often that I am enthusiastic about providing letter to introduce a professional person and his capabilities.

This is one of those rare opportunities that I am pleased to introduce Mike Clapp and his dedicated colleagues and Agility Ops Agency.

The Team have in the past been appointed as an extension of my permanent staff when we required additional skills to execute work and be held accountable for the outcome.

Over several projects that have addressed ;

- additional logistic services to supply our export markets.
- short term engineering consultancy to confirm load bearing structures at Port Saldanha quayside
- planning intervention on water purification production to meet contractual deadline.
- Teambuilding support to integrate site separated departments into an efficient supply chain

Mike has access to personnel that span several disciplines and he is able to offer these in various models in short term contracts or longer ongoing business models that suit our business, which has unplanned staff demands. In some cases the tasks become permanent and staff join the company.

Our current project is the roll out of GSM guardhouse to Estate residents communications in conjunction with Phangela Security. The advantage being a totally wireless service with pre-programmed contact which include emergency services. Here their past experience with SAPS and the security industry is providing results that an in-house team would be costly and would finally be disbanded at project ending.

As noted I am willing to provide this letter based on the ongoing success we have experienced with Mike's business development team.

Should you have any questions please direct them to me at the office or personally at 082 808 5612.

Kind regards

Gordon Blackbeard
Chairman
