

It is with much enthusiasm that I would like to recommend Mike Clapp after having worked with him for a number of years on numerous projects.

Throughout my dealings with Mike Clapp, he has always presented with a can-do attitude, he is reliable, results oriented and very much a team player. Being a practical and solutions-driven person, he has always promised and delivered results with a balanced business acumen and his wealth of knowledge and business experience stands him in good stead to drive any team to success.

I can say with absolute confidence that he would be an asset to any future partners and wish him only the best.
