## **To whom it may concern**

19<sup>th</sup> August 2020

We have known Mike Clapp for just on 12 years now and have worked with Mike on many different projects at different stages of this journey.

With a strong work ethic and a commitment to the task at hand – this has been a cornerstone of Mike's success. Through community projects of supporting those less fortunate during times of need to bring people together to give relief during disasters that his community has faced in the past he has always been the first to willingly give of his time and effort .

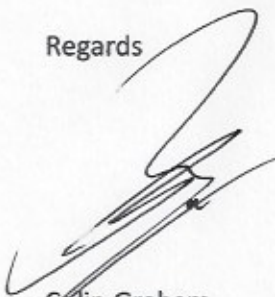

Through his engaging character and positive outlook Mike has developed a circle of associates who are of the same ethical standard with proven business solutions and expertise in their fields.

It has been a pleasure and honour to work with Mike and with the team of people he has introduced us to for the projects that we have undertaken and delivered.

We will continue to support Mike and utilise his expertise and use his team as we move forward – knowing that we are in good capable company.

For any further information please contact +27 827260901

Regards

Colin Graham
